

## Petrela, Winter & Associates Welcomes Shawn McCallum as Head of its New London, Ontario Office

Petrela, Winter & Associates (PWA) is pleased to announce the addition of Shawn McCallum to its team of bonding and construction insurance brokers/advisors. Shawn will lead the newly opened office of PWA in London, Ontario, providing contractors in Southwestern Ontario with the expert personalized service, competitive market options, and overall added value that PWA is known for in the construction industry.

Shawn is a long-standing London area broker who has spent his entire professional career serving the bonding and insurance needs of construction contractors in Southwestern Ontario. Prior to joining PWA, Shawn held the position of Senior Vice President for a large publicly traded insurance broker, where he built an excellent reputation as a trusted broker to the region's contractor community.

"The London area and surrounding region has been under-served in terms of the availability of local brokers who specialize in construction and have a meaningful value offering to contractors", says Roy Ferreira, Vice President at PWA. "PWA will fill this void by offering contractors competitive options from an industry leading brokerage that specializes solely in construction."

"We believe that local contractors will appreciate our unique combination of personalized, knowledgeable, pragmatic service and advice, backed by the resources and buying power of one of the more influential construction-specialist brokers in Canada", says Gregory Petrela, President of PWA.

Petrela, Winter & Associates, a Navacord Broker Partner, is a leading Canadian owned and owner-operated bonding and insurance brokerage specializing exclusively in construction since 1979.
